### **ALLOWANCE**

The amendment filed January 15, 2005 includes two claims numbered 27. The latter claim 27 has been renumbered as 28 and claims 28-44 have been renumbered 29-45.

The following is an examiner's statement of reasons for allowance: Chaigneau (French Patent 2 641 557) discloses a post mounting arrangement including a tubular body portion (2) adapted to be installed in the ground (Figure 1) and has an open end to receive a post (15). There is an enlarged flange portion (4) defining a head portion, a resilient collar (14) adapted to receive and engage the post and a strengthening band (9). The head portion includes a first recess (18) which engages the collar, and apertures (7). Even if an aperture is considered to be within the scope of a "recess," the apertures are adapted to receive fasteners (bolts, not shown) rather than the strengthening band itself. The prior art does not provide motivation for altering the apertures of Chaigneau to receive the band, since this change would unnecessarily complicate the structure of Chaigneau.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 571-272-6989. The examiner can normally be reached on Tuesday through Friday, 9am-5pm.
